# HAVE YOU DONE YOUR HOMEWORK?

If you have a home-based business, you may not have the right kind of insurance coverage in the event of a loss.

Most people assume that their business will be fully covered under the terms of their existing home owner's policy. That's simply not true.

Our home business coverage has been custom-designed for your home-based business. It includes many features that deserve a close look as part of your homework for your business:

## Business Property

Coverage for the furniture, fixtures and equipment you use for your business including merchandise.

## Business Income

Your loss of income is covered if you are unable to work because of damage to your home.

## Business Documents

Coverage for the loss of your business documents.

## Business Liability

Protection against legal liability as a result of the operation of your home-based business.

**Call your independent insurance broker or return this completed post card, to receive a free insurance quote on your business.**
